PROJECTS

School Website

2024 - 2025

- Designed and implemented the website's front-end layout using HTML for structure, CSS for styling, and JavaScript for interactivity.
- Ensured cross-browser compatibility and optimized the website for various devices.
- Collaborated with the school administration to gather requirements and incorporate feedback.
- Utilized version control systems like Git for tracking changes and managing code.

Amazon Clone

2024 - 2025

- Created a fully functional e-commerce website replicating Amazon's features using HTML, CSS, and JavaScript
- Designed the user interface and layout using HTML and CSS to ensure a visually appealing and user-friendly experience.
- Developed interactive features and functionality with JavaScript, such as search, shopping cart, and user authentication
- Implemented responsive design principles to ensure the website is accessible on various devices.

SKILLS

- Languages: C/C++,Java,Javascript
- Framework: React.Js
- Databases: Mysql,MongoDb
